

CORPORATE FINE ART

GRIEGER G

2011 Building interior fittings | Production and installation of face-mounted graphics behind glass in an office building | Customer: Bayer AG

## Our standard **OUTSIDE THE NORM**

The realisation of innovative art concepts, extraordinary museum fittings and the atmospheric, aesthetic design of rooms and buildings means one thing above all to us: no run-of-the-mill solutions.

Working with new forms of materials and techniques, we focus on individual concepts for

- Hotel interior fittings,
- Conference rooms,
- Foyers,
- Ferries,
- Public and other buildings.

We look out for and look forward to facing new challenges to make your ideas into reality. Including outside the norm.

---

The perfect solution

## **FROM PLAN TO REALISATION**

Before any prints are created, we advise you and plan your project, taking into account all the local conditions and requirements. Throughout this process, you can consult us at any time to draw on our extensive knowledge of materials and products. This could include working on your existing projects or advising you on new, individualised overall concepts, which we could then implement together. In matters of safety precautions, material requirements and installation options as well, you benefit from the knowledge and experience of our well-versed customer advisers. We would be delighted to place artists at your disposal, who will help you to realise your own ideas and visions.

---

Grieger all-inclusive

## **FULL SERVICE WORLD WIDE**

As a highly professional service provider, we are committed to offering every conceivable service on all aspects of the presentation of large-format prints, shaped and defined by our high quality standards. Whether your building is at home or abroad, whether you need a wall covering, art installation or museum fittings – our committed team will be right by your side.

2013 Special exhibition project | Planning, production and installation for the exhibition "EXTRAORDINARY WITHIN THE ORDINARY", Château de Versailles, Paris  
Customer: AHAE Press Inc.

Art in focus

## **FROM THE STUDIO NEXT DOOR TO ANYWHERE IN THE WORLD**

We use the best and the most renowned freight forwarders for our projects that have to be shipped or transported. To ensure safe delivery, we offer high-quality transport crates, and air-conditioned transport if required.

2015 Art in Architecture | Planning, production and installation project "Destinations" at Fraport (FLH-Frankfurt)  
Artist: Martin Liebscher (by kind permission of Martin Asbæk Gallery) | Tunnel project with continuous wall photographs on both sites, each image a 280 x 1.8 m digital print on aluminium with a clear lacquer coating.

---

## Grieger exclusive **THE PERFECT SETTING**

As a specialist in high-quality production and services in the field of artwork, we cooperate closely with clients, galleries and museums. Consequently, it is particularly important to us that we also help and assist our customers beyond the production stage. Therefore, as well as expert assembly and installation on site, an important part of our services includes planning and realising complex installations.

2010 Extensive backlit banner production for the Art in Architecture project Sint-Pieter Station in Gent.  
Artist: Beat Streuli.

---

## Innovation – Made in Germany

# **LARGE FORMAT FOR DECADES**

Since the 1980s, Grieger has been completely au fait with large-format printing and was therefore one of the first service providers to enter the arena of large-format image production. This was a long time before LFP became the popular term for large-format printing. Today, we are an experienced service provider offering complete packages in large-scale digital printing, including the issues of environmental protection and fire-resistance classes, special productions and complex installations.

---

The best materials

## **THE SIGNS OF INDIVIDUAL QUALITY**

The selection of the right materials is crucial and must be matched quite individually and sensitively to the artwork and place of installation. We have extensive expertise in this area, built up through decades of experience, practice and material testing. This specialist knowledge allows us to find the perfect solution in terms of durability and quality for every conceivable situation.

2016 Building interior fittings | Planning, production and installation of wall graphics in the Charité Berlin | Artist: Tyyne Claudia Pollmann
